FOUR POINT CHECKLIST

For "Line #" below, enter the line number in your code to the first instance that you believe best satisfies the condition.

Line #	Item
18 - 22	Use of "+" to concatenate or add strings together
16	Input from user: save data into a variable
73	Input from user: process data from a variable, display results to user
N/A	Use of basic math (+, -, *, /, etc.)
60 - 72	Use of: if, elif, else {all three in one block}
161 - 170	Use of comparison operators (<, >, <=, >=, ==, etc.)
N/A	Use of loop: "for i in range:"
127	Use of loop: "while:"
78	Use of "import random" (randint(), randrange(), choice(), etc.)
N/A	Use of "try except"
Yes	tkinter: assignment submitted in a form approved by teacher
18 224-225 119	tkinter: use different widgets widget name: message box widget name: button widget widget name: label widget
46 99	tkinter: use of multiple "def" keyword to handle different events
33-36	tkinter: displays different images
yes	tkinter: obvious effort made for visual appeal
	Video uploaded to Flipgrid. Video must conform to requirements.
yes	Appropriate error handling throughout code
yes	Appropriate comments throughout code
yes	All key points above clearly identified in video
